Maximum Marks	4 Marks

Step-2: Brainstorm, Idea Listing and Grouping

**Brainstorm**

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

Admin	Traders	Persona 3	Persona 4
Manage users	Browse real-time stocks	Track portfolio performance	Search stocks quickly
Add / Update stocks	Buy stocks with virtual funds	View charts & market trends	Add to watchlist

TIP

After conversations help to clarify relationships between ideas and discover new connections within your team.

Step-3: Idea Prioritization

**Prioritize**

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes

TIP

The ideas in the top-right quadrant (High Importance & High Feasibility) are the best candidates to move forward with.

**Importance**

Focus on ideas that bring the most value to users and solve the core problems effectively.

**Feasibility**

Regardless of how important, an idea that is very difficult to implement may not be worth pursuing.

High	IMPORTANT BUT HARD	DO IT NOW
	Advanced Charts & Indicators	Buy/Sell Stocks (virtual trading)
	AI-based Stock Recommendations	Real-time Stock Prices
		User Authentication
		Portfolio Dashboard
Low	LOW PRIORITY	NICE TO HAVE
	Gamification (Badges)	Dark / Light Mode
	Social Sharing Portfolio	Download Reports
		News Feed Integration

TIP

Focus on quick wins in the Do It Now quadrant and iterate. Re-evaluate ideas periodically as your product and user needs evolve.
